"The Present & Future of your MACHINES"

Our Operating Base

Our Products

KOMATSU
ATLAS

Our Accessories

Accessories for
your machines

RENT has always based its sales policy on customer service, and always makes sure that the products it sells offer the best available deal in terms of:

- reliability as a business partner,
- product quality,
- range of models,
- efficient service and maintenance conditions.

Today, after over thirty years of experience, we are convinced that good client relations depend ultimately on the quality of after-sales service. That's why we constantly invest in the improvement and development of our after-sales services.

A satisfied client is the most effective testimony a company like ours can offer, and that's why we spare no effort in our endeavour to keep improving the quality of our services.

RENT has qualified technicians and sophisticated systems for the diagnosis and repair of any breakdown. Our assistance and spare parts service operates swiftly and efficiently exactly where it is needed most: head office, our local authorised workshops, or on your work site: we make every effort to get machinery working again as quickly as possible and reduce passive costs.

- **Maintenance Services** - to ensure optimum reliability and productivity of your machines. We have introduced the Maintenance Agreements- a practical solution for quality routine and emergency maintenance, to optimise efficiency and reliability of our machinery;
 - **Preventive Maintenance Agreement**
 - **Routine Maintenance Agreement**
 - **Maintenance Agreement for Propulsion Unit "Power Train"**
 - **Full Service Maintenance Agreement**
- **Preventive Maintenance Services - Programmed Lubricants Analysis** - to detect problems before they occur, reduce machine stoppages and cut running costs.
- **Reconditioning Services** - with original spare parts. A range of retrofit alternatives offers considerable savings in terms of time and money.
- **Group Exchange Programme Service** - prepared in the factory and in our workshops, under warranty.

RENT has a constantly replenished **SPARE PARTS WAREHOUSE**, meaning exceptionally fast supply and delivery of spare parts are guaranteed. Most spare parts are available immediately; in the case of temporary shortages we immediately activate our global parts provisioning mechanism to minimise machine stoppage time.

*'s commitment is to supply you with the Best Machines
and the Best Service.*
